## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the limitations of claims 8-10 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim(s) 1 and 6 fail(s) to recite sufficient structural elements and interconnection of the elements to positively position and define: 1) how the operating device is prevented from access of the rearmost position; 2) a stroke length (claim 1); 3) how the cutouts allow for free vertical penetration (claim 6) so that an integral structure able to function as claimed is recited.

### ***Allowable Subject Matter***

Claims 1-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action. In

Art Unit: 3637

regard to claims 8-10, note the drawing objection and the reference to new matter situations.

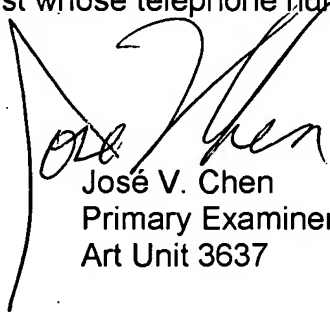

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Weiss, Lamar, Howe, Graber et al, Burwell, Ebeling et al, Harvey, Rapeli, Matthews et al;, Yingling, Manidis, Cass teach structure similar to applicant's.
